Coconut Shell (takes too long to decompose, You can use its fibre to scrub your dishes or give it to someone who will use it as fuel)

**DO NOT** throw any of these waste items into the organic waste bin

Cheese only - no foil

Line your Kitchen, Pantry and Canteen Bins with **Newspaper** instead of Plastic - this way you reduce use of plastic and the newspaper is useful in composting the organic waste. Use many layers if your waste is too wet.

This will then be put into a composter for composting.
