

Problem

You all want to compost your food waste together in a central place, but don't know how.

1

You segregate but still send waste to landfill

No segregation

While all flats do not want to manage waste, you want to compost your kitchen waste but have no time or space

2

Currently send to landfill

Afraid of smell

Daily Dump
COMPOST AT HOME

You have a lot of garden litter

3

You send to landfill

You Burn

Solution

We have a beautiful, smell free, easy to maintain, composter for large volumes of food waste which needs no electricity

We get you started on segregation

The New Smart

Aaga
The Large Volume Community Composter

We have just the smell free, small space composter that is easy to use and fits your busy lifestyle

Remix Composter
for the Busy YOU

Smell Free

We have aesthetic Leaf Composters for garden litter

Non polluting

Leaf Composter
Simply collect garden litter and mulch. Do not send to landfill
