

# Organic waste in your home

>>>recognize it

We take our organic waste for granted. Look at it again with fresh eyes and you will begin a journey of wonder!

## Household Waste in Indian Homes

Urban Indian homes, on an average, generate 0.75 - 2 kgs of organic waste daily. This works out to 70% of the total household waste.

vegetable stalks & ends

fruit peels

scraps of newspaper

soiled paper napkins

dried flowers

citrus fruit peels

tea bags

tea leaves & coffee powder

egg shells

coconut shells
